

West Coast South America Discussion Agreement (WCSADA) – Colombia Section
General Rate Increases 2010

The Member Lines of the above Agreement providing service between the East and Gulf Coasts of the USA and the East Coast of Colombia, South America have adopted guidelines calling for a Southbound General Rate Increase effective January 18, 2010, with further revenue improvements to be implemented April 1, July 1 and October 1, 2010. The level of increases that will be applied on each of the foregoing dates will be \$200.00 per 20ft container, \$400.00 per 40ft container, and \$9.00 per cbm for LCL cargoes.

These increases are necessary in assisting carriers bringing rates back to compensatory levels and offset the significant cost increases that they expect will continue in 2010.

For more information, please contact the member lines listed hereunder.
